## Chemetal Metal Designs

Designs shown here are only photographic representations and subject to variation in appearance due to photography and printing. Please obtain a product sample before specifying.

### Chemetal Technical Data

Below please find an abbreviated version of our technical data. More complete info is viewable and downloadable at [chemetal.com](http://chemetal.com).

#### USE:

Chemetal metal designs and laminates are recommended for interior use on vertical and light-duty horizontal surfaces. Please contact Chemetal if you are uncertain about the use of Chemetal in any application. Caution should be taken on surfaces that may be exposed to harsh chemicals, acidic beverages (alcohol, colas, etc.) without cleaning surface for lengthy periods of time.

#### STORAGE:

Store flat, not on edge. The laminates should be stored face-up in a cool, dry area and in a completely supported flat position. Use a top sheet of chipboard or similar material to hold stored sheets flat. Protect material from twist, rack and edge damage.

#### HANDLING:

Many Chemetal designs are solid aluminum and may distort or kink if handled incorrectly. To prevent surface distortion, large sheets should be handled by two people and transported face up. Additionally, please view our "How to Handle Chemetal" video at [chemetal.com](http://chemetal.com) under Downloads>Videos.

#### PROTECTIVE MASK:

Although Chemetal is supplied with a protective mask, care should be taken when handling. Exposure of masked sheets to light or heat for long periods of time may cause problems with the removal of the protective mask. It is recommended to leave mask on surface of the laminates during fabrication. Additionally, masking tape, or extra protection in routing work, may be applied over the protective mask. Color uniformity and other quality checks should be carried out on the sheets beforehand by lifting up the edge of the mask and laying or taping back down.

#### CLEANING AND MAINTENANCE:

Clean with a soft cloth using mild soap and water or nonabrasive glass and metal cleaning liquids. Do not use ammonia, abrasive cleaners or pads, or harsh solvents. Magnetic board should be cleaned with magnetic board cleaner.

#### SHIPPING:

Many Chemetal designs may be rolled for shipping. Magnetic laminates (150 Series and #160), solid metal sheets and sheets with a low pressure laminate backer added cannot be rolled. The exception: 24" wide designs with low pressure laminate backer.

Magnetic and Dry Erase	Sheet Size	Base Metal	HPL	Phenolic	Metal	Weight sq ft
150 HPL Magnetic Board	4' x 8'	Iron/Melamine	.033			.58 lb / sq ft
151 Black Magnetic Chalkboard	4' x 8'	Iron/Melamine	.033			.58 lb / sq ft
152 White Gloss Magnetic Dry Erase	4' x 8' , 4' x 10'	Iron/Melamine	.043			.58 lb / sq ft
153 White Satin Magnetic	4' x 8'	Iron/Melamine	.043			.58 lb / sq ft
158 Kauai Gloss Magnetic Dry Erase	4' x 8'	Iron/Melamine	.043			.58 lb / sq ft
160 White Gloss Magnetic Dry Erase	4' x 8' , 4' x 10'	Steel		.05	.023	.94 lb / sq ft
