MEIJIE

Meijie Faucet Company, Ltd. is a privately held producer of kitchen and bath faucets and related accessories, located in Dongguan, Guangdong Province, China. Unlike many producers, we are dedicated exclusively to developing OEM, ODM and Private Label products for the North American marketplace. Our capabilities are fully integrated, which enables to design, engineer and manufacture products in-house, relying on outside sources for less than 10% of product content. This focus enables us to operate a very cost effective operational platform which permits us to provide our customers with high quality products at affordable prices, which meet their specific requirements.

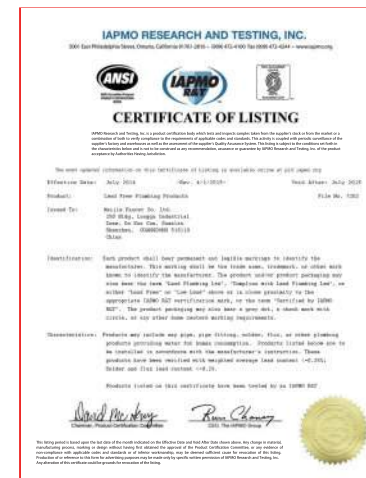

Our North American customer base is diverse and serves all sectors of the marketplace, including Professional and Retail which enables us to understand market requirements and expectations. This ensures that the products which we produce are neither over nor under engineered, both of which can lead to problems and ultimate failure. We enjoy long term, collaborative and mutually beneficial relationships with our customers, a clear indication of our dependability with respect to quality, price and delivery.

CERTIFICATON

Meijie is well aware quality open the door to a market. In the fierce marketplace, we have been pursuing even better quality. Over the past 10 years we have consistently implemented an effective quality control system that allows a sustainable and stable growth.

CERTIFICATON

We guarantee the product quality through rigorous testing , advanced manufacturing meticulous design and vigorous management. Most of our products are certified for products you can trust and we have obtained UPC, cUPC, NSF-61, AB1953, Watersense EPA and DOE etc. With an unyielding commitment to quality, we have earned honors in the industry.

On the journey ahead, Meijie, will remain committed to its "quality first" corporate philosophy. We have applied all those relative certification for North American.
